PREFACE

The 2009 edition of the Kansas Association of Community College Business Officers Enrollment and Financial Statistics Report is a document that presents data relating to Kansas Community Colleges in an aggregated summary manner.

Community colleges in Kansas share a common heritage; in this respect their one common attribute is that their missions reflect the values of the communities they serve. For this same reason however, the institutions are as different and unique as the economic demography of different parts of the state. The institutions' management support systems have evolved in unique ways that effectively meet the needs of those local colleges but are different from one another.

Some comparisons can be made of the data submitted from each college in this report; however, a more careful study of the management systems of the colleges and the economic demography of the areas reveal that comparative statistics such as these are inexact and can lead to serious misconceptions about the nature of individual colleges.

For this reason readers are encouraged to use the data in the spirit that led to its collection originally and that was to assist each institution in making management decisions about operational processes within their colleges.
